

MT 2016 PNA Data

Billy Reamer
Community Engagement Conference
Fairmont Hot Springs
9/19/16 to 9/21/16

Types of reports

1. Profile Reports

- Contain Charts and Graphs
- Contain aggregate and synthesized data about the community
- Contains information and directions about how to use the information

2. Crosstab Reports

- Contains more raw data on every question

Different Reports

- State level
- County level
- Native American (all combined)
- Association of superintendent
- MACO region
- District athletic classification
- Judicial district
- Students by gender
- Planning region
- Contractor catchment area
- Students on probation

Profile Report additions

- All grades data when possible
- Table 13 (Drug Free Communities data)
- Table 14 (Substance use in relation to perceived parental acceptability)
- BG Prevention Specialist Contact Information

Reliability and Validity

- Students age within reason for grade
- Students reporting impossibly high drug use
- Three validity Questions
 - *used phenoxydine (pox, px, breeze) in your lifetime?*
 - *used phenoxydine (pox, px, breeze) during the past 30 days?*
 - *How honest were you in filling out this survey?*

Participation Issues

- Poor response rate
- Inconsistent school response
- Holding steady over the last two administrations
- Rarely getting 60% response rate
 - What does this mean for you

Critical supporting documents

- Item Dictionary
 - Shows you exactly what factors/questions are factored into all scaled questions
- Actual PNA Survey
 - TAKE IT, you will get a feel for what is asked and be better prepared to answer questions from the public
 - Know what questions are there as they are not all represented in the Profile Reports and the data may be useful to certain sectors.

When do we use the reports?

Let's take a look

Activity

1. Open a state or county Profile report at your table
 - Popcorn read the introduction pages
 - Review the charts, graphs and tables

Activity CContinued

1. Questions to help facilitate
 1. How many students participated and what does this tell you.
 2. What is going up? Down?
 3. What areas are higher or lower than the State, BHN, MTF
 4. What is surprising to you?

Need to know basis and you need to know

- Discs were burned Sunday and Monday
- School Discs were mailed out yesterday to addresses on the recruitment lists (online)
- Individual school participation is not available at this time...we are working on it to see if we can share.

School Support and Recruitment

- We have two years to quadruple participation
- Schools will not participate if they do not see the value in it for them
- It is our job as prevention workers to make sure they understand the survey, data, and value for them.

Full Day Data Training

- October. Exact date to be determined but looks like it will be early.
- Bach Harrison will be here
 - Review the survey methodology and data in detail
 - Prepare you for presenting/sharing the data with others in various sectors
 - You should leave with presentations ready and a deep understanding of the entire process
 - You will leave with concrete plans for increasing 2018 participation
